Taft & Our 6th Principle / World Peace Presented by Rev. Frank W Carpenter, D.Min.

Cincinnati native Wm. Howard Taft was the most recent Unitarian to be President of the USA. After he left the White House he was the leading Unitarian Laymen. During World War One he took the lead for building American morale. His most important lifetime goal was supporting international peace negotiations. Is his work relevant to our world?

QUOTE: WH Taft: “war should be abolished, and that the suffering, cruelty, corruption and demoralization that follow in its trail should be, as far as we can bring it about, be lifted as a burden from the human race.”
